PROFESSIONAL SUMMARY

Experienced Senior Software Engineer with 5+ years of background in building scalable web applications, microservices, and cloud infrastructure.

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, TypeScript, SQL

Frameworks: React, Node.js, Flask, Django, Spring Boot

Databases: PostgreSQL, MongoDB, Redis, MySQL

Cloud & DevOps: AWS, Docker, Kubernetes, Git, CI/CD, Linux

WORK EXPERIENCE

Senior Software Engineer | TechCorp Inc.

Jan 2021 - Present

- Architected microservices REST API backend serving over 2 million daily active users using Python, Flask, and PostgreSQL.
- Reduced database query latency by 40% through Redis caching and query indexing optimization.
- Led continuous integration and automated deployment pipelines using Docker, Kubernetes, and AWS EKS.

Software Engineer | DevSolutions LLC

Jun 2018 - Dec 2020

- Built full-stack dynamic dashboards using React, Redux, and Node.js.
- Implemented secure JWT authentication and role-based access control.

EDUCATION

Bachelor of Technology in Computer Science

University of California, Berkeley (2014 - 2018)

CGPA: 3.8 / 4.0

PROJECTS

Smart E-Commerce Microservices

Technologies Used: Python, FastAPI, Docker, PostgreSQL, React

- Developed an asynchronous order processing pipeline using RabbitMQ and Redis.

CERTIFICATIONS

- AWS Certified Solutions Architect - Associate
- Docker Certified Associate
